GUEST SPEAKER

Edward B. Lee, MD, PhD

Assistant Professor of Pathology & Laboratory Medicine
University of Pennsylvania School of Medicine

"Pleiotropy in Frontotemporal Degeneration"

Wednesday, October 10, 2018

12:00 – 1:15 p.m.

UPMC Presbyterian Hospital
Scaife Conference Center, 11th Floor
Room 1104
200 Lothrop Street
Pittsburgh, PA

Edward B. Lee, M.D., Ph.D., graduated Phi Beta Kappa and with honors from Stanford (1997), and obtained his M.D. and Ph.D. degrees from the University of Pennsylvania (2005) where he studied amyloid pathology in various experimental models under the mentorship of Virginia M.-Y. Lee, PhD. After clinical training in Anatomic Pathology and Neuropathology at the Hospital of the University of Pennsylvania, Dr. Lee was appointed Assistant Professor in 2011 in the Department of Pathology and Laboratory Medicine at the University of Pennsylvania, and is currently principal investigator of the Translational Neuropathology Research Laboratory. He is also an attending physician at the Hospital of the University of Pennsylvania, and a co-leader of the NIH supported Penn Neurodegenerative Disease Brain Bank. Dr. Lee has published greater than 80 peer-reviewed manuscripts and reviews, and has obtained several grants from the NIH and various foundations including the Doris Duke Charitable Foundation. Dr. Lee has served on multiple study sections for the NIH and the DoD, and is on the editorial board of *Acta Neuropathologica* and *JNEN*. He has also received multiple awards and honors including the Experimental Pathologist in Training Award from ASIP, the Excellence-In-Science award from ASIP, and a Young Physician-Scientist award from ASCI.
