

Pediatric Pathology fellow activities in Neuropathology

Attend Friday brain cuttings when pediatric brains on schedule, write up gross findings, review histology, recommend evaluation, write microscopic description and final diagnoses

On **3rd** Friday of every month:

- Attend Brain cutting
- Review surgical and autopsy neuropathology from previous weeks
- Review pediatric neuromuscular cases with NP fellow or attending
- In consultation with attending select 3-4 cases for presentation at [Children's 10 AM conference](#) on 4th Friday of month
- Self-Study:
 - Neuropathology Study Guide
 - [Neuropathology Virtual Slide Curriculum](#)
 - [Magical Stain Tests](#) (3)
 - [Canvas quizzes and tests](#)
 - Complete one set of quizzes in first 6 months and second set of quizzes in final 6 months.
 - [Pediatric NP Test "A" \(start of rotation\); "B" at end of rotation](#)

On **4th** Friday of every month, attend and present at 10AM Children's Conference

Participate in pediatric intraoperative consultations as available.

Present NP cases at Children's M&M and Tuesday autopsy conferences
